

EMERSON, REID & Co.

HR Connect Employee Benefit Websites For Your Clients

To further differentiate you from your competition, Emerson Reid can build an employee benefit website, at no cost, for each of your clients with 10 or more medical lives written through ERC. With this website, your clients will have a secure, online resource to organize and streamline all their relevant employee benefit information.

More importantly, you'll have a powerful client retention tool as your client will need to continue to place their business through you in order to retain their website. In addition, we have developed an effective sales technique that enables you to show a prospective client a customized sample site to help secure the account.

Advantages for HR Administrators:

With HR Connect, HR Administrators are more productive and efficient with disseminating benefit information to their employees. There is less of a burden on HR Administrators to answer basic benefit questions as well as continuously having to fax, copy or email benefit summaries and forms to employees. HR Administrators can now direct employees to a single source to obtain information as well as view, print or download summaries, forms and documents.

Benefit Communication:

Employees have 24/7 access to detailed benefit summaries, links to important carrier forms and provider directories. A health insurance glossary is provided to help head off basic questions. HR Administrators can post additional information as needed.
